

**PRIMARY METERING RIDER – EXISTING INSTALLATION
SCHEDULE PMR - EI**

AVAILABILITY:

This rate is available to existing primary customers, subject to the following guidelines:

- 1) Primary metering installed prior to January 1, 2023, to physically interconnect and aggregate the load and metering of secondary delivery points.
- 2) The customer must be taking service at the primary meter under one of the Corporation's nonresidential rate schedules.
- 3) The delivery point shall remain to be the point of attachment of the Corporation's secondary facilities to the customer's owned equipment, unless otherwise specified in the contract for service. All wiring, pole lines and other electric equipment on the load side of the primary meter owned and maintained by the Corporation prior to the installation of the primary meter shall remain owned and maintained by the Corporation.
- 4) Billing to the customer will occur under the rate schedule most applicable to the load levels measured by the primary meter.
- 5) The customer shall continue to pay for any Distribution Facilities Charge or Additional Facilities Charge in effect prior to the Effective Date of this Rider.
- 6) As determined by the Corporation, the customer shall pay for twenty (20) percent of the billing produced by the Basic Service Charges recovered under the present rate schedule(s) that would be applicable to the secondary delivery points prior to the installation of the primary meter but are no longer recovered under the rate schedule applicable after the installation of the primary meter. ("Stranded Basic Service Charge"). The Corporation's Board of Directors shall review from time to time and may revise, in the best interests of the Corporation, such percentage of Stranded Basic Service Charges.
- 7) The customer agrees to pay the Corporation for the costs of any on-going sub-metering (existing meters prior to the installation of the primary meter) and supplying sub-metering information to the customer.
- 8) In the event that an additional secondary delivery point is requested by the customer and the Corporation agrees to provide primary service by combining the existing primary service with the new metering point, the following additional guidelines shall apply.
 - a. Primary metering shall not be implemented by means of totalizing customer's usage data from two or more existing meters and without the installation of an additional primary meter.

Effective Date: December 31, 2025

Issued By: David C. Lett, CEO

Board Approved – December 17, 2024

- b. The customer pays to the Corporation as a CIAC for all of the costs to install the additional primary metering and the costs required to connect existing meters to the primary meter ("Additional Facilities").
 - c. There is no discounting of the Basic Service Charge applicable to the additional secondary delivery point.
- 9) If there is a transfer of the customer account to a different account, or in the event of change in customer ownership, all Basic Service Charges applicable to the secondary delivery points prior to the installation of the primary meter shall be billed by the Corporation at one hundred (100) percent of the Basic Service Charges recovered under the present rate schedule(s) applicable to the secondary delivery points.

TYPE OF SERVICE:

Single-phase and three-phase, 60 hertz service at the following standard voltages: 120/240 Single-Phase, 120/208 4-wire Wye, 120/240 4-wire Delta, 277/480 4-wire Wye or 480 3-wire Delta as otherwise available in territory served or other voltage as might be mutually agreeable.

APPLICABILITY:

All motors over (10) horsepower must be three-phase type rated motors.

RATE:

The Primary Metering Charge shall be determined as the sum of the Existing Facilities and Additional Facilities, based on the Corporation's current costs of operations and maintenance services, and other applicable carrying charges, plus Stranded Costs.

TERMS AND CONDITIONS OF SERVICE:

- 1) The cost of the Existing and Additional Facilities shall be the original cost of material used, including spare equipment; if any, plus applicable labor, transportation, stores, tax, engineering and general expenses, all estimated if not known.
- 2) The Corporation shall have the option of refusing requests for primary service if, on its own determination, such service is not feasible, or practical.
- 3) In the event that either Existing or Additional Facilities must be modified or replaced, whether or not such modification or replacement is requested by the consumer, then the total cost of such shall be borne in full by the consumer. However, at the sole option of the Corporation, all or part of the cost for such modification or replacement may be incorporated in the monthly Primary Metering Charge.
